Program Symposium

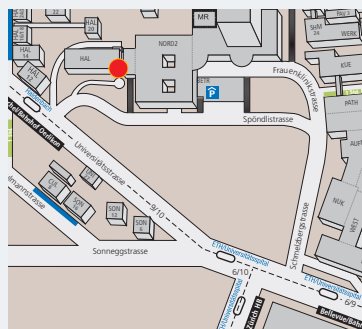

Thursday, June 4, 2015, UniversitätsSpital Zürich, Frauenklinikstrasse 26, Hörsaal Monakow

Session one:

- 14.00 h **Remyelination in MS – how to do it better**
Prof. Anna Williams, Center for Regenerative Medicine, University Edinburgh
- 14.30 h **B cells and antibody-mediated immunity in MS**
Prof. Martin Weber, Dept. Neuropathology, University Göttingen
- 15.00 h **Dissecting MS Heterogeneity: The role of Neuroimaging**
Prof. Matilde Inglesè, Mount Sinai Medical School, New York
- 15.30 h Break

Session two:

- 16.00 h **Case Presentation**
- 16.10 h **Experimental therapies for MS – current approaches at the USZ**
Prof. Andreas Lutterotti, Neuroimmunology and MS Research, University Zurich
- 16.35 h **PML, diagnostics, biomarkers, new treatment approaches**
Dr. Ilijas Jelcic, Neuroimmunology and MS Research, University Zurich
- 17.00 h **New insights in diagnosis, prognosis and treatment response**
Prof. Xavier Montalban, Catalan Center for MS, Barcelona
- 17.45 h Discussion and conclusion
- 17.45 h Apéro

Organisation

Prof. Roland Martin, Prof. Andreas. Lutterotti,
Dr. Sven Schippling, UniversityHospital Zürich
